Just Who is Omni International ?

Omni International LLC was established in 2000. Omni was formed to provide hand covering for the professional healthcare, dental and veterinary markets. In addition, Omni International markets NSF Certified Vinyl Food Service Gloves as well as other industrial gloves.

Our mission is to exceed our customers expectations and needs for product quality, value, service and innovation. We invest in people and technology to ensure we are leaders in customer support, efficient manufacturing and supply chain management. This philosophy has helped Omni be very successful in this volatile glove market.

Our customer base includes medical, industrial, food service, retail and major restaurant chains serviced

through our distribution network. We service our customers from three strategically located warehouses in Pennsylvania, Colorado and Washington.

Omni International is headed up by Chairman Tom Menk and President Ken Mosher.

Tom has an MBA in Finance and started his first successful business in 1978. He began importing apparel from China in 1985. Tom is a founding shareholder in Omni and became the controlling shareholder in 2005.

Ken is a well known and highly respected person in the medical glove market. Ken brings over 30 years experience in the development, manufacture and sales of medical gloves. Prior to Omni International, Ken held positions at Tillotson Healthcare and Perry (now Ansell-Perry).
