THE SECOND GENERATION "LITE TOUCH" NITRILE GLOVE

As we mentioned in the April edition of GLOVE LINES, Omni International is working on new technologies for our distribution network to present to their customers. Today, we are proud to announce the introduction of our second generation Lite Touch Blue Nitrile Examination Glove.

We were overwhelmed with interest during a national medical distribution trade convention the week of May 1. To prove they meant business, we accepted many pre-delivery orders the past two weeks. Delivery will be late May or early June when our distribution centers will start receiving the second generation Lite Touch gloves.

Why all the hoopla? Our original Lite Touch glove was extremely popular in the dental and physician practice. As a matter of fact, it's growth among dental professionals has been astounding. To add to the excitement, end users who have tried samples of the second generation glove simply love it! That means Omni distributors have a huge opportunity for sales just ahead. Get ready and be prepared!

Our second generation **Omni Lite Touch Nitrile glove**, offers a more comfortable fit, and great protection in a slightly darker blue color. Your customer will notice this "lite" nitrile glove smoothly slips onto the hand.

They will like the extra stretch which, in combination with a polymer coating, permits this easy-on glide. Once the glove is on, the magic begins—as our Lite Touch immediately starts conforming to the wearer's hand allowing a very nice and natural fit. (This reason alone helped make our original Lite Touch popular with the dental market.) Your customer will notice in amazement the glove conforming to their hand as they both achieve the same ambient temperature!

And the PRICE is so close to powder free latex, you will surely impress your customer! Remember—**DENTISTS love this glove** and **PHYSICIANS sales are growing.**

FYI -OMNI also offers this product in a General Purpose glove for our food service and consumer customers.

You can't afford to miss this great second generation of our Lite Touch Nitrile Glove. Samples and product specification sheets are available two ways.

1. Fill out an info form on our web site www.OMNIGloves.com.
2. E-mail info@OMNIGloves.com and ask for samples and literature.

Due to high demand, please allow 14 days to receive requested samples and information. The catalog numbers are: #202-21—Small #202-22—Medium #202-23 -Large #202-24— Extra Large

Thank you for selling **OmniTrust**, **OmniShield**, and **OmniTech** Gloves. Thanks also for taking a moment to read the May issue of **GLOVE LINES**. Look for another product enhancement in the June issue. Have a great month!
