LITE TOUCH NITRILE GLOVES

A few months ago in GLOVE LINES, we commented about the pricing on latex gloves and how long your customer would tolerate the continuous rise in pricing. It must be the time because many of you are asking our sales team...What glove should we use to substitute for latex?

One suggestion we have is the OmniTrust™ LT (Lite Touch) Powder Free Nitrile Glove - #202 Series. This 100% Nitrile, Powder Free exam glove contains no natural rubber latex. It is one of the lightest, yet durable medical nitrile gloves in the market place today. Our Lite Touch nitrile material is "Thermal Sensitive". Essentially that means as the glove warms to body temperature, while being worn, it molds to the shape of your hand making it one of the most comfortable gloves you will ever wear! Different from other gloves that can fight the hand, this unique feature allows the hand to relax more while the glove is in use.

Featuring the strength, static and chemical resistance of Nitrile, these gloves have excellent donning characteristics and textured fingers for

superior grip control. They are also flat packed for optimum dispensing and available in sizes Small through Extra Large.

You may wonder where are the best places to sell the OmniTrust™ LT (Lite Touch) Powder Free Nitrile Glove....read on.

- **Dental** - The smooth surface affords maximum patient comfort while the textured finger tips promote precision instrument manipulation. (We have been told that Dentists absolutely love the Lite Touch Glove).
- **Medical/Laboratory** – An excellent glove for instrument utilization as well as grasping syringes, needles and glassware.
- **Long Term Care** – The smooth surface allows easy comfortable patient movement while the textured finger tips allow enough texture to grip the skin/clothing for maneuvering the ambulatory patient.
- **EMS** - Economically priced and tough enough to perform well. (Well worth taking a look at.)

Ordering Information. Packaged 150 per box, 10 boxes per case, 1,500 gloves per case.

- #202-21 SMALL,
- #202-22 MEDIUM,
- #202-23 LARGE,
