

Product Description

Our OmniShield™ Latex Powdered Multi-Purpose Glove is a reduced protein glove. It has our famous (micro-texture) matte finish for added grip control without loss of tactile sensitivity. This glove is manufactured with a non-chlorination process thus maintaining the stretch characteristics of latex. A lightly powdered coating gives this glove excellent donning characteristics. Omni International latex gloves are available in sizes small through extra large.

- Lightly Powdered for Easy Donning
- Micro-Textured for Superior Grip Control
