

**Thermally activated
by hand temperature**

Introducing: The OmniTrust™ #212 Series Nitrile Powder Free Examination Glove

A Fantastic Glove for Dental Professionals

Gloves play an essential role in the daily work activities of oral health professionals. Our OmniTrust Nitrile™ Powder Free Glove is a thermally activated glove that starts conforming to your hand when donned. You will find our Comfort Formulation is very comfortable and could reduce hand fatigue when used during long periods of time. It has micro-textured fingertips for better control and tactile sensitivity when handling dental equipment and tools. Omni's #212 series is tested safe use with Chemotherapy Drugs and Fentanyl resistant.

Features & Benefits

- Comfortable Formulation, Thermally Activated
- Not Made With Natural Rubber Latex
- Tested For Safe Use With Chemo Drugs
