

Ultimate Nitrile Powder Free LT Examination Glove - Chemo Rated

We may have found the absolute best nitrile glove for every use – Our new 2OmniTrust 204 Series Nitrile Powder Free Examination Gloves - Chemo Rated! Wherever you are in acute, physician/clinic, dental, EMS, long term care...ANYWHERE. Thinner than our 203 series gloves, these gloves offer the “ultimate” in tactile sensitivity along with the strength you expect from our Nitrile glove products. In addition, it is Chemo Rated for added protection from chemotherapy drugs and its durability is proven in chemical resistance properties. Our 204 provides easy donning with an innovatively designed low-friction surface.
