

Black Nitrile Powder Free Examination Glove

Introducing our OmniTrust™ Black Nitrile Powder Free Examination Gloves. This is an excellent “soft” glove for use in Emergency, Rescue, Police and Forensic situations as well as in any other area where a black glove is preferred. The 213 series black nitrile glove is a very strong glove, yet thin enough to provide the necessary touch they need to perform delicate activities. And yes, it has the strength for uses beyond health care including tattoo, automotive, printing and other industries. Our 213 series has a smooth finish with micro-textured finger tips for added grip control without loss of tactile sensitivity. OmniTrust™ Black Nitrile Powder Free Examination Gloves are flat packed for optimum dispensing in sizes small through extra-large.
