

Conforming Gauze Elastic Bandages Sterile & Non-Sterile

OmniTrust Conforming Gauze Elastic Bandages stretch to conform while clinging to itself. They are highly absorbent and low linting for better wound care management. Used in emergency, surgery, patient room, orthopedic and dermatology. Excellent at securing both easy and hard to wrap wounds. Non-Sterile Conforming Elastic Bandages are packaged in boxes of 6 or 12. Sterile Conforming Elastic Bandages are individually wrapped with either 6 or 12 to the package.
