

# OmniTrust Wound Care

## Sterile ABD Combine Dressings

OmniTrust Sterile Abdominal Pads are multi-layered highly absorbent dressings. The three layers consist of an outer non-woven layer to wick, a fluff-filler layer for absorbency, and a wet-proof moisture barrier layer. The Pads are sealed on all four sides with a blue indicator line on the back for placement away from the wound site. OmniTrust Sterile Dressings are packaged 1 per pack in the specifications below.

| Product                                 | Omni Item # | Size     | Ply | Pcs/Pouch Package | Pieces/Box | Boxes/Carton |
