

## Fentanyl Resistant Nitrile Powder Free Examination Glove

Introducing our OmniTrust Fentanyl Resistant Powder Free Nitrile Examination Glove. This provides ideal protection for use in Law Enforcement, First Responders, and Correctional Facilities where the presence of Fentanyl is known or highly suspected. The 217 series glove is very strong and durable, providing exceptional barrier protection in the following environments: tattoo, automotive, laboratory, chemical and industrial manufacturing, veterinary, cannabis, printing, and security industries. Our 217 series has a smooth finish with textured finger tips for added grip control and is flexible for tactile sensitivity. OmniTrust Fentanyl Resistant Nitrile Powder Free Examination Gloves are flat packed for optimum dispensing and available in sizes X-Small through XX-Large.
